

# DIGITALAGENT

## All-In-One Voice, Data, IT, & Cybersecurity

### Digital Agent offers comprehensive Voice, Data, IT and Cybersecurity

#### Managed IT

Our Managed IT Gold customers get **fully Managed Network** for a flat monthly rate. We also offer a-la-carte services like **Managed Helpdesk**, **cloud services**, **vCIO consultations**, and **BCDR solutions**.

#### Cybersecurity

Digital Agent provides customers with 24/7 active monitoring through **Managed SOC**. We combine this with **IDS/IPS**, **Firewall Management**, **Dark Web Monitoring** and **Security Awareness Training** to keep you safe.

#### Business Phone

Digital Agent understands that voice solutions aren't one-size-fits-all. That's why we offer a **comprehensive portfolio of phone systems and services**, including **UCaaS**, along with **expert customer support**.

#### Business Internet

**High-speed fiber** without the hassle. With a range of connection and backup options, our clients have what they need, when they need it – all backed with **real-time system monitoring to ensure uptime**.
