

## Managed IT

Digital Agent brings a holistic approach to managing our clients' technology. From **expert consulting** to **state-of-the-art cybersecurity**, we're here to future-proof their IT and protect it from evil.

### mIT Silver

Digital Agent offers a wide range of a la carte services to supplement a company's internal IT. Our mIT Silver package is **completely customizable**, and may include:

- Helpdesk Support
- Server Support
- Cybersecurity

### mIT Gold

With mIT Gold, Digital Agent becomes a clients' IT department. We take a snapshot of **their whole network—printers, servers, workstations, WiFi, and more**. For a **single monthly fee**, we take care of that whole snapshot. Which means:

- No worrying about what is covered and what isn't.
- **No surprises** on their monthly bill.
