

Managed Internet & SD WAN

There's nothing more frustrating than getting the run-around from a big-box Internet Service Provider (ISP) when you need help with your Internet connection. With Digital Agent, our clients have access to **24/7 expert support and the most reliable, high-speed connections on the market.**

High-Speed Fiber

- **99.999% up-time** and **gigabyte speeds**
- The premiere Internet solution for businesses

Cost-Effective and Flexible Backup Internet Options

Digital Agent offers **Wireless WAN backup Internet** to all fiber customers.

- Fail-safe in case of a primary Internet outage.
- More **flexible** and **cost-effective** than a cable backup

SD WAN Solutions Powered by Fortinet

- Automatic Failover
- Application Awareness and Automated Path Intelligence
- Advanced Networking and Security
