

Business Internet: Wireless WAN

Wireless Wide Area Network (WWAN)

Wireless WAN can **replace more expensive backup internet options** while offering **greater flexibility** and **reliability**. It can also provide **same-day internet** while we work to set-up your primary fiber or coaxial connection.

Benefits of Wireless WAN

- Quick and easy install
- Reliable backup solution in case of outage
- Well-suited to remote or temporary work environments
- Unaffected by downed or cut wires
- Flexible and affordable
